

Clean CAP

Wireless Ultrasonic Fill-Level Sensor

Product features

Can be attached to any type of bin, container, or tank

Clean CAP fill-level sensor can be mounted on any type of bin, container, or tank. If the container is made of plastic, the device can be mounted by screwing. For steel containers, Clean CAP can be fixed to the container's lid using brackets.

Senses both solid and liquid materials

Clean CAP's ultrasonic sensor enables it to detect both solids (general waste, paper, glass, e-waste, textile, etc.) and liquids (oil, sludge, agriculture products, etc.). The range of distance can vary between 30 cm - 400 cm (4 m / 13 ft).

Basic specifications

Clean CAP Plus

Clean CAP Flex

Power	3.6V high performance lithium battery	3.6V high performance lithium battery
Size (H x W x L)	95mm x 96mm (3.74in. x 3.8in.)	60mm x 70mm x 60mm (2.36in. x 2.75in. x 1.96in.)
Net weight	470g (1.04 lbs.)	250g (0.55 lbs.)
Battery life	Up to 10 years	Up to 5 years (replaceable)
